TARGET COUNTRIES

The possibility of cooperation in 2017

International Forum CHEMIKA-EXPO

**THIS YEAR- 20-21.10.2016 we
welcome you to Szczecin**

Key National Cluster since October 2015 r.

***Key National Cluster** is a cluster that is crucial from the perspective of Polish economy and its competitive position. Key National Clusters are selected at the national level, inter alia based on the following criteria: the critical mass, their development and innovation potential, their cooperation status, plans, experience and the potential as a coordinator.*

We invite you to cooperate!
