A few words about BRIGHT

- What is it, and why the exchanges?
- In few words BRIGHT is an action to improve the way clusters work towards their ecosystems and collaboratively between them, focused on digital health and the digitalisation of health ecosystems.
- Long-term partnership
- Excellence in cluster organisations and their service delivery
- New services for the ecosystems of Uppsala, Northern France, Estonia and Catalonia
- Support mobility across Europe of ecosystem members
 - Open new markets
 - Attend international fairs and events
 - Find partners and collaborators
 - Meet key stakeholders in the regions

About Biocat

- Who are we and what do we do?
- Biocat is a cluster organisation that catalyses, builds and promotes the Catalan life sciences and healthcare ecosystem, known as the BioRegion of Catalonia. In summary, we:
 - Accelerate technology transfer and business growth
 - Project the ecosystem, making it visible and building a common strategy around strategic topics
 - Foster entrepreneurship and talent development
 - Bring together the ecosystem with international players, in search of synergies and opportunities for scaling-up

• What is the BioRegion of Catalonia?
